

NIAGARA BELCO

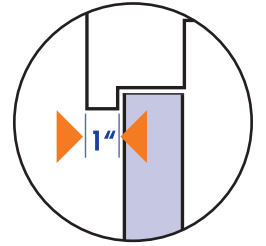

North America's Lift & Door Solution

**North America's premier manufacturer and distributor of
quality accessibility lifts and elevator swing door assemblies
for over 25 years!**

C-500 Freight Elevator Entrance (1" Setback)

Exclusive to Niagara Belco, this double swing freight elevator entrance was developed in 1993 to meet the need for a protected interlock. Typical designs using surface mounting techniques leave the interlock exposed and susceptible to serious damage during loading and unloading leading to costly down time and expensive repairs. The C-500 series door assemblies feature a fully concealed interlock designed to provide years of low maintenance and trouble free service.

Standard Features

- 16 Gauge Frame (6¹/₈" Jamb depth, galvaneal & paint ready)
- 16 Gauge Door (1³/₄" thick, H/C core, galvaneal & paint ready)
